Features

Modular Li-ion battery system for maximum flexibility

The X5 Series introduces a modular battery architecture, allowing operators to install one or two battery modules depending on workload intensity. Each 80V/280Ah unit can be combined to achieve 560Ah total capacity, offering long runtime and seamless power management. This flexibility supports 24/7 operations and makes the X5 adaptable to evolving user needs over time

High performance for productivity boost

Delivering travel speeds up to 17 km/h, lifting speeds up to 0.55 m/s, and gradeability up to 25%, the X5 Series ensures fast, efficient handling comparable to traditional IC forklifts. Its lithium technology guarantees consistent performance and fast recovery through opportunity charging, enabling maximum uptime in fast-paced operations.

All-terrain capability with 150 mm ground clearance

With pneumatic tires and 150 mm ground clearance, the X5 Series effortlessly manages ramps, potholes, and rough surfaces. The robust undercarriage prevents chassis damage and ensures reliable mobility across mixed terrains, making it a dependable solution for both warehouse and outdoor logistics.

Operator comfort and improved components

The X5 prioritizes operator safety and comfort with a redesigned cabin, high-visibility mast, ergonomic seat with armrest, wide brake pedal, and large LED display. Enhanced LED front lighting and improved hydraulic controls offer excellent visibility and smooth, precise operation throughout the workday.
